CUSTOMIZED RECOVERY AND GROWTH ASSISTANCE FOR CALIFORNIA MANUFACTURERS

Get Help from an Expert Business Stabilization Consultant!

CMTC, in partnership with a network of statewide partners, is offering an assistance program to support California small and medium-sized manufacturers.

How it works:

- California manufacturers with 500 employees or fewer can sign up to meet with an expert Business Stabilization Consultant who will conduct an assessment of the company’s current state and work to understand the organization’s specific needs, challenges and opportunities.

- After the assessment is complete, a customized Plan of Action with recommendations and resources will be provided to help recover and grow the business during and beyond the COVID-19 crisis. Both the assessment and the Plan of Action are provided at no cost to the manufacturer.

SUPPORT IS ALSO AVAILABLE IN THE FOLLOWING AREAS, WITH ACCESS TO FUNDING OFFSET PROGRAMS FOR QUALIFYING COMPANIES:

- Workplace Safety
- Workforce Training and Development
- Marketing and Lead Generation
- Cybersecurity
- Continuous Improvement
- Supply Chain/Supplier Scouting
- Financial Planning
- Cost Reduction
- State, Local and Federal resources
- Webinars
